

REBOUND

Electronics (HK) Ltd

Quality Policy

Rebound Electronics (HK) Ltd recognise that the future of our success depends upon the products and services we supply consistently meeting the requirements and expectations of our customers, as well as legal and regulatory requirements. Our model is helping purchasers safely buy electronic components in today's volatile market.

We understand that our actions and those of our suppliers affect both our customers and our organization. Through constant review of our suppliers we maintain a high level of quality.

All products, are inspected without exception, are photographed and are fully traceable through our management system.

We continually ensure that our processes remain efficient and relevant, allowing us to function effectively and adjust to the varied needs of our customers.

Rebound Directors, Management and staff fully understand that they are responsible for customer satisfaction through the use of the quality procedures that operate to ISO9001:2015 and fulfill the requirements of this policy.
